

Towards a future we can be proud of

At Ecojustice, we set our sights on a healthier and brighter future. For over twenty five years, our legal victories have protected what matters to you. Your legacy gift is a long-term investment in our mission to protect and restore the Canadian environment through the power of law. Your gift will ensure that we continue to hold governments and corporations

accountable. Our ground-breaking lawsuits protect wilderness and wildlife, take aim at dirty energy projects and keep harmful chemicals out of the air, water and soil we all depend on.

We envision a clean energy future and the right to a healthy environment for all living beings.

Planting the seed for future generations

“ I often wonder what will be left for future generations. We regularly experience water boil advisories and worry about the safety of our drinking water. We feel better knowing that Ecojustice is acting as a watchdog. Working with our lawyer, we were happy to arrange for a simple plan in our wills, which takes care of our loved ones and supports our favourite causes too. For us, it is a win-win situation. ”
